

CITY OF EUREKA

Category: ENGINEERING

POLICIES & PROCEDURES

Subject: FIRE SERVICE CONNECTIONS

Date Adopted: July 1, 1982

File Number 6.70

POLICY OBJECTIVE

To encourage the installation of internal and external fire protection devices and sprinkling systems.

ASSIGNED RESPONSIBILITY

City Engineer

APPLICABILITY

Applicable to property owners who wish to make a connection to the City water system solely for the purpose of providing a fire protection system. A separate service is required for commercial, residential, industrial or landscaping purposes in addition to the fire protection service.

PROCEDURES

- A. All requests for a fire service connection will be made to the City Engineer. The City Engineer shall determine if the connection will be used solely for fire protection service.

Unless the applicant demonstrates some special circumstance, the fire service shall be granted only in conjunction with the installation of a sprinkler system connected to that service.

- B. Installation of the connection will be made by the City as provided in the Eureka Municipal Code, the owner shall pay a fee based on the current schedule of fees at the time the connection is requested.
