Category: PUBLIC SERVICES

POLICIES & PROCEDURES

Subject: SEWER LATERAL
INSTALLATION

Date Adopted: May 1, 1983

File 6.72
Number

POLICY OBJECTIVE

To establish policy and procedure for installation of sewer laterals.

ASSIGNED RESPONSIBILITY

Public Works and Engineering Departments

APPLICABILITY

All requests for sewer connection.

POLICY:

- A. It is the primary responsibility of the City to install sewer laterals (building sewers) from the sewer main to the property line.
- B. Laterals installed beyond the property line shall be the responsibility of the owner.
- C. Applicant for installation shall pay an amount, in advance, based on the current adopted schedule of fees.
- D. In lieu of installation by City forces, the Public Works Director may require the applicant to make such connections at their own expense.
- E. Any such installation charges will be in addition to connection charges as defined in City of Eureka schedule of fees and charges.

PROCEDURES

- A. Persons desiring sewer connection should be directed to the Engineering Department to make application.
- B. Applicant shall be notified of total amount due including connection and installation fees.
- C. Upon payment of the amount due, work order shall be forwarded to Public Works Operations for scheduling and construction.
