Eureka Housing Workshop

April 10th
6pm-8pm
Wharfinger Building, 1 Marina Way, Eureka

The City of Eureka is hosting a fun and dynamic workshop to gather community input about housing. We want you to be there!

All housing types are up for discussion: market rate and affordable housing, single-family and multi-family, owner-occupied and rental, tiny houses, mother-in-law units, and more.

The workshop will start with an interactive multi-media presentation highlighting the current state of housing in Eureka. Following the presentation, you will participate in an open-house community workshop in which you will circulate between several stations to learn about housing creation strategies, meet city council members, engage in conversations with other participants, and have your thoughts recorded by workshop facilitators. If you have ideas on how Eureka can best meet our growing housing need, then we want to hear from you!

Refreshments provided: PIZZA! ICE TEA! KALE SALAD!
