NOTICE OF PUBLIC HEARING

EUREKA DESIGN REVIEW COMMITTEE

NOTICE IS HEREBY GIVEN that the Eureka Design Review Committee will hold a public hearing on September 25, 2019, at 8:30 a.m., or as soon thereafter as the matter can be heard, in the Council Chamber, Eureka City Hall, 531 “K” Street, Eureka, California, to consider the following application:

Project Title: Moran Multifamily Residential Development

Project Applicant: Bonnie Oliver    Case No: DR-19-0005

Project Location: 1318 6th Street

APN: 001-234-011

Project Zoning and Land Use: OR (OFFICE Residential)/PO (Professional Office)

Project Description: The applicant is proposing to construct two new dwelling units on top of two existing dwelling units, resulting in a total of four dwelling units. The project requires Design Review as it consists of an addition adding 30 percent or more floor area to the total existing floor area of a building in a mixed-use zoning district. Design Review is the only discretionary approval required for this project.

All interested persons are invited to comment either in person at the scheduled public hearing, or in writing. Written comments may be submitted prior to or during the hearing by mailing or delivering them to the Development Services Department, Third Floor, 531 K Street, Eureka. Appeals to the Planning Commission of the action of the Design Review Committee, may be made within 10 calendar days of the action by filing a written Notice of Appeal, along with the filing fees as set by the City Council, with the City Clerk.

If you challenge any decision made by a review authority through administrative appeal or in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the review authority at, or prior to, the public hearing. Accommodations for handicapped access to City meetings must be requested of the City Clerk, 441-4175, five working days in advance of the meeting. The project file is available for review at the Development Services Department. If you have questions regarding the project or this notice, please contact Raquel Menanno, Assistant Planner, rmenanno@ci.eureka.ca.gov or (707) 441-4113.
Project Title: *Moran Multifamily Residential Development*

Project Applicant: Bonnie Oliver  
Case No: DR-19-0005

Project Location: 1318 6th Street

APN: 001-234-011

Project Zoning and Land Use: OR (OFFICE Residential)/PO (Professional Office)

Project Description: The applicant is proposing to construct two new dwelling units on top of two existing dwelling units, resulting in a total of four dwelling units. The project requires Design Review as it consists of an addition adding 30 percent or more floor area to the total existing floor area of a building in a mixed-use zoning district. Design Review is the only discretionary approval required for this project.

Materials include:

- Hardi plank smooth plank horizontal lap siding
- Wrought iron guard rail and stair rail
- Belly band rim trim and deck rim
- Composition shingle

Analysis:

The project requires Design Review as it consists of an addition adding 30 percent or more floor area to the total existing floor area of a building in a mixed-use zoning district. Approval of the Design Review application, requires that the following findings be made to ensure the project complies with the Design Review criteria.

Design Review Criteria:

<p>| Community Character | The overall project design enhances Eureka’s unique character and distinctive sense of place. A variety of building types and styles respects Eureka’s architectural heritage and embraces forward-looking creative expression; |</p>

<tbody>
<tr>
<td><strong>The project site for the proposed multifamily residential development contains two dwelling units. The addition of this project will enhance Eureka’s unique character and distinctive sense of place by providing two new housing units incorporated into the existing two ground floor units.</strong></td>
</tr>
<tr>
<td><strong>Surrounding Context</strong></td>
</tr>
<tr>
<td><strong>Pedestrian Environment</strong></td>
</tr>
<tr>
<td><strong>Design features including the designated pedestrian walkway to the building entrance, street-facing building entrance, covered building entry, and balcony all support an active public realm and an inviting pedestrian environment.</strong></td>
</tr>
<tr>
<td><strong>Architectural Style</strong></td>
</tr>
<tr>
<td><strong>A coherent and successfully executed architectural style is illustrated through the roof form variation, balcony, and welcoming pedestrian design features. Contrasting façade material size between the first and second story creates increased perceptual complexity, further contributing to the coherent and successfully executed architectural style.</strong></td>
</tr>
<tr>
<td><strong>Articulation and Visual Interest</strong></td>
</tr>
<tr>
<td><strong>The proposed project includes roof form variation, balcony, and a covered building entry which contribute to a distinctive build façade that relates to the human scale. Visual interest is also created through the differentiation in building façade material size from 4” exposure hardi-plank siding to 8” exposure hardi-plank siding.</strong></td>
</tr>
<tr>
<td><strong>Materials</strong></td>
</tr>
<tr>
<td><strong>Building façade materials include hardi-plank siding which are high-quality materials appropriate to the architectural style, enhance building articulation, and are compatible with surrounding development.</strong></td>

### Safety

The project promotes public safety and minimizes opportunities for crime through design features such as property access controls (e.g., placement of entrances, fences), increased visibility and features that promote a sense of ownership of outdoor space.

**Design features such as a street facing building entry, multiple street facing windows, a balcony, and pedestrian-scale lighting at all parking areas and pedestrian access ways all promote public safety and minimize opportunities for crime by placing “eyes on the street” and creating well-lit areas.**

### Landscaping

Landscaping features low water-use plants appropriate for the local climate and does not include any invasive species that would be harmful to native plants and habitat in compliance with Section 155.320.050.D (Invasive Plants).

**Landscaping features include rocks (crushed granite gravel or similar) along with 2-gallon alpine plum yew trees, and 2-gallon dwarf Japanese garden juniper trees, which are not invasive plant species.**

### Findings

<table>
<thead>
<tr>
<th>Objective</th>
<th>Finding</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Objective 1</strong></td>
<td>The proposed project is consistent with the General Plan, any applicable specific plan or area plan, and other design policies and regulations adopted by the City Council;</td>
</tr>
<tr>
<td></td>
<td>The proposed project is consistent with the General Plan because it ensures that the street-facing facades of proposed developments exhibit high quality design, complement neighboring properties, and contribute to Eureka’s distinctive identity and unique sense of place, as implemented by the Zoning Code.</td>
</tr>
<tr>
<td><strong>Objective 2</strong></td>
<td>The proposed project complies with all applicable provisions of the Zoning Code and Municipal Code;</td>
</tr>
<tr>
<td></td>
<td>The proposed project complies with all applicable provisions of the Zoning Code and Municipal Code as reviewed by staff.</td>
</tr>
<tr>
<td><strong>Objective 3</strong></td>
<td>The proposed development will not be detrimental to public health, safety, or welfare or materially injurious to the properties or improvements in the vicinity;</td>
</tr>
<tr>
<td></td>
<td>The proposed development seeks to enhance public health, safety, and welfare through providing additional residential units in compliance with the Zoning Code. The project was referred to additional agencies of which none identified concerns that the proposed development would be detrimental to public health, safety, or welfare, or materially injurious to the properties or improvements in the vicinity.</td>
</tr>
<tr>
<td><strong>Objective 4</strong></td>
<td>The proposed project complies with all applicable Design Review criteria in Division 155.408.030.H (Design Review Criteria)</td>
</tr>
<tr>
<td></td>
<td>The proposed project complies with all applicable Design Review criteria as findings can be made to support each criteria.</td>
</tr>
</tbody>
</table>

**Environmental:** The Design Review process is a discretionary action subject to environmental review in accordance with the California Environmental Quality Act (CEQA). However, this project qualifies for a Class 3
exemption from CEQA because the project is a multi-family residential structure, totaling no more than four dwelling units meeting the conditions of Section 15303.

**Agency and Departmental Comments:** Referrals were sent to several Tribes, agencies and City departments with interest or jurisdiction over the property or the intended use of the property. The following Agencies/Departments commented:

1. [Not available at time of publication. Any comments received to be presented at meeting]

**Staff Recommendation and Motion:**
1. Hold a Public Hearing; and
2. Approve the Design Review application as submitted at 1318 6th Street.

**Staff Contact Person:** Raquel Menanno, Assistant Planner; phone: (707) 441-4113; email:

**Attachments:**
Attachment 1 Resolution
Attachment 2 Project Plans
WHEREAS: The applicant is proposing to construct two new dwelling units on top of two existing dwelling units, resulting in a total of four dwelling units; and

WHEREAS: The proposed project, multi-family dwellings, is principally permitted; and

WHEREAS: The property at APN 001-234-011 is zoned Office Residential (OR) and has a land use designation of Professional Office (PO); and

WHEREAS: The Eureka Municipal Code §155.412.040(B)(1) requires that an addition adding 30 percent or more floor area to the total existing floor area of a building in a mixed-use zoning district receive Design Review Committee approval prior to construction.

The following findings of fact are based on information submitted with the permit application, agency comments, available records, public comment, and staff research and analysis.

FINDING 1: The proposed project is consistent with the required Design Review findings found in §155.412.040(J) FINDINGS, as described in the staff report.

FINDING 2: The Design Review process is a discretionary action subject to environmental review in accordance with the California Environmental Quality Act (CEQA). However, this project qualifies for a Class 3 exemption from CEQA because the project is a multi-family residential structure, totaling no more than four dwelling units meeting the conditions of Section 15303.

NOW THEREFORE, BE IT RESOLVED by the Design Review Committee of the City of Eureka that the project, as described in the Staff Report, is approved subject to the following conditions of approval. The violation of any term or requirement of this conditional approval may result in the revocation of the permit.

CONDITION 1: Prior to commencement of any demolition, remodeling or construction, the applicant will obtain all required Building permits to the satisfaction of the City of Eureka Public Works Building Department.

CONDITION 2: In the event a building permit involving any ground disturbing activity is issued, the City’s standard protocol for incidental archeological discovery (cultural or historical artifacts) shall be followed:

   a) If archaeological resources are encountered during construction activities, all onsite work shall cease in the immediate area and within a 50-foot buffer of the discovery location. A qualified archaeologist will be retained to evaluate and assess the significance of the discovery, and develop and implement an avoidance or mitigation plan, as appropriate. For discoveries known or likely to be associated with native American heritage (prehistoric sites and select historic period sites), the Tribal Historic Preservation Officers for the Bear River Band of Rohnerville Rancheria, Blue Lake Rancheria, and Wiyot Tribe are to be contacted immediately to evaluate the discovery and, in consultation with the project proponent, City of Eureka, and consulting archaeologist, develop a treatment plan in any
instance where significant impacts cannot be avoided. Prehistoric materials may include obsidian or chert flakes, tools, locally darkened midden soils, groundstone artifacts, shellfish or faunal remains, and human burials. Historic archaeological discoveries may include 19th century building foundations; structure remains; or concentrations of artifacts made of glass, ceramic, metal or other materials found in buried pits, old wells or privies.

b) If paleontological resources, such as fossilized bone, teeth, shell, tracks, trails, casts, molds, or impressions are discovered during ground-disturbing activities, work shall stop in that area and within 100 feet of the find until a qualified paleontologist can assess the nature and importance of the find and, if necessary, develop appropriate treatment measures in conformance with Society of Vertebrate Paleontology standards, and in consultation with the City of Eureka.

c) In the event of discovery or recognition of any human remains during construction activities, the landowner or person responsible for excavation would be required to comply with the State Health and Safety Code Section 7050.5. Construction activities within 100 feet of the find shall cease until the Humboldt County Coroner has been contacted at 707-445-7242 to determine that no investigation of the cause of death is required. If the remains are determined to be, or potentially be, Native American, the landowner or person responsible for excavation would be required to comply with Public Resources Code Section 5097.98. In part, PRC Section 5097.98 requires that the Native American Heritage Commission (NAHC) shall be contacted within 24 hours if it is determined that the remains are Native American. The NAHC would then identify the person or persons it believes to be the most likely descendant from the deceased Native American, who in turn would make recommendations to the landowner or the person responsible for the excavation work for the appropriate means of treating the human remains and any associated grave goods within 48 hours of being granted access to the site. Additional provisions of Public Resources Code Section 5097.98 shall be complied with as may be required.

PASSED, APPROVED AND ADOPTED by the Design Review Committee of the City of Eureka in the County of Humboldt, State of California, on September 25, 2019 by the following vote:

AYES: COMMISSIONER
NOES: COMMISSIONER
ABSENT: COMMISSIONER
ABSTAIN: COMMISSIONER
