Downtown Core Area Reconnaissance Survey for the Recent Past

This report establishes a foundation for formulating planning efforts with a focus towards historic preservation within the City of Eureka's Downtown Core Area; it also forms the basis for additional review, research and documentation of historic resources in the downtown core area.

Because of geographic and physical constraints, the availability of vacant developable land within the City is very limited, particularly commercial and industrial lands. As such, when it comes to commercial and industrial development, the focus is primarily on redevelopment and in-fill development. Clearly, one of the prime areas for redevelopment/in-fill development is the downtown commercial core area – the subject of this report.

Although the City does not require off-street parking for core area commercial uses, because of the heavy reliance on the private automobile many developers who are expending great dollar amounts on redevelopment insist that off-street parking be constructed to support their development. At present, the method for obtaining vacant land for surface parking is to demolish nearby buildings. This, of course, poses a substantial risk to historic resources in the downtown core area. Although the City remains committed to preservation of our historic resources, we also are very cognizant of the necessity for economic development. It is this pressure for redevelopment and the need to balance redevelopment efforts with historic preservation that resulted in the City's grant proposal for the preparation of this report. The City's desire is to gain a framework in which to formulate a plan that fairly balances these often competing pressures (i.e., redevelopment and historic preservation).

1.3. Survey Objectives

This Downtown Core Area Reconnaissance Survey identifies previously unrecognized properties constructed during the period of approximately 1935 to 1965. The survey area also includes properties that were constructed prior to 1935 and after 1965. The goal of the survey is to identify buildings that are important specifically to Eureka's history and development patterns. It is assumed that these buildings will be evaluated for significance at a later date.

2.0 Methodology

2.1. Survey Methodology

A Reconnaissance Survey is an investigative field survey of structures located within an identified area. The *Primary Record* (State of California Department of Parks and Recreation 523a form) is the minimum level of information needed to be included in the Office of Historic Preservation filing system. The *Primary Record* gives an overview of each property from which a preliminary evaluation based on intact character defining features may be developed.

Eureka's Historic Preservation Commission volunteers determined boundaries for the Downtown Core Area Reconnaissance Survey. Each property within the district was listed on a master list with address, assessor parcel number, construction date if known, and any additional notes. Approximately 210 addresses and parcels were identified (see Appendix A).

In addition to identifying the property and clear physical description of the property is given. The description includes character-defining features such as construction details, materials, massing, floor plan roofline, etc. that convey the physical attributes of the property. Each property was assessed for integrity. Integrity is the measure by which properties are evaluated. To retain integrity a property must have most of the seven aspects of integrity as defined by the National Register Criteria for Evaluation. The seven aspects of integrity are quoted as follows:

- Location = Location is the place where the historic property was constructed or the place where the historic event occurred.
- Design = Design is the combination of elements that create the form, plan, space, structure, and style of a property.
- Setting = Setting is the physical environment of the historic property.
- Materials = Materials are the physical elements that were combined or deposited during a particular period of time and in a particular pattern or configuration form a historic property.
- Workmanship = Workmanship is the physical evidence of the crafts of a particular culture or people during any given period in history or prehistory.

- Feeling = Feeling is a property's expression of the aesthetic or historic sense of a particular period of time.
- Association = "...is the direct link between an important historic event or person and a historic property"

Upon returning from the survey work, all of the field information was entered onto electronic DPR 523a forms. Properties considered potentially historic were keyed using the "other identifier" section of the Primary Survey form to record the designated building number to correspond to the master list. Of the original 240 addresses and sites (includes multiple address in single buildings), 55 buildings were surveyed. The project area was surveyed on July 22 and 23, 2004. Sheila McElroy (Consultant) was assisted in the field by volunteers Ron Kuhnel and Chuck Petty. Building permits and period Sanborn Maps were used to confirm alterations or changes to the properties, and Assessor records were used to confirm construction dates.

Of the 55 buildings surveyed, 36 buildings were within the 1935-1965 study period and retained enough integrity to be considered potentially historic. Completed survey forms are contained in Appendix B.

3.0 Findings

3.1. Survey Findings

Due to budget constraints in-depth research and evaluation was not in the scope of work for the Eureka survey, however, material was made available through limited research and volunteer efforts. Several properties were identified in the historic photographs (Appendix C) from the Lloyd Stine collection housed at the Humboldt County Historical Society. In some cases these images confirmed construction dates or alterations for properties. Properties where historic photos were confidently matched are as follows: 1039 4th, 605 4th St, 523 5th, 402 F St, 723-734 5th St, 324 F St, 520-528 5th St, 442 5th St, 215 C St, 108 4th St, 302 4th St, 203 5th St, and 306 F / 412 3rd St. Other property and photograph matches could not be confirmed. Building permit records and County Assessor files were utilized to confirm information as well. Several buildings within survey area were constructed prior to 1935 and therefore fell out of the period of 1935-1965. Others were significantly altered and no longer retained enough integrity to be considered for the survey.

Comparing Sanborn Maps for the years 1949-1958 (years 1930-1948 were not available) and period photos (1935-1960) it was observed that the north east corner of 4th and J street, south west corner of 3rd and H streets (half a block), south west corner 4th and H streets, north west corner 5th and D streets, south west corner 5th and E streets, south side of 3rd between G and H streets, south east corner 3rd and G streets (half block), south east corner 3rd and C streets, north west

corner 3rd and D streets, and the south west corner of 2nd and D streets and the entire civic center site were demolished.

Overall, the existing building stock within the study area has been compromised due to demolitions, new construction, inappropriate renovations and surface parking lots that create radical incongruities in development patterns for the entire downtown core. The surveyed properties were generally in good condition but many exhibited deferred maintenance that could threaten the integrity of the property. The area most intact is the mixed use cluster that also includes properties earlier than 1935 on the 400 block of 3rd, going south on F to 4th Street and is better understood as an extension of the existing Old Town Historic District to the north as opposed to a standalone district. Other smaller groupings do appear. The 400 block of 3rd and the 500 block of 5th Streets have almost continuous examples of Moderne Style storefront on older buildings. The pairing of 723-734 5th and 730 5th has a shared plaza that sets-off the modern, mid-century styling of the two properties. The pair of Minimal/Traditional Style dwellings (now used for offices) at 504 and 510 K Street also represents a residential building trend at the upper (east) section of 5th Street. Individual properties in the 1100 block of 4th and 5th reflect the government or civic use in that area including a large motel property that was named "City Center Motel" in 1955.

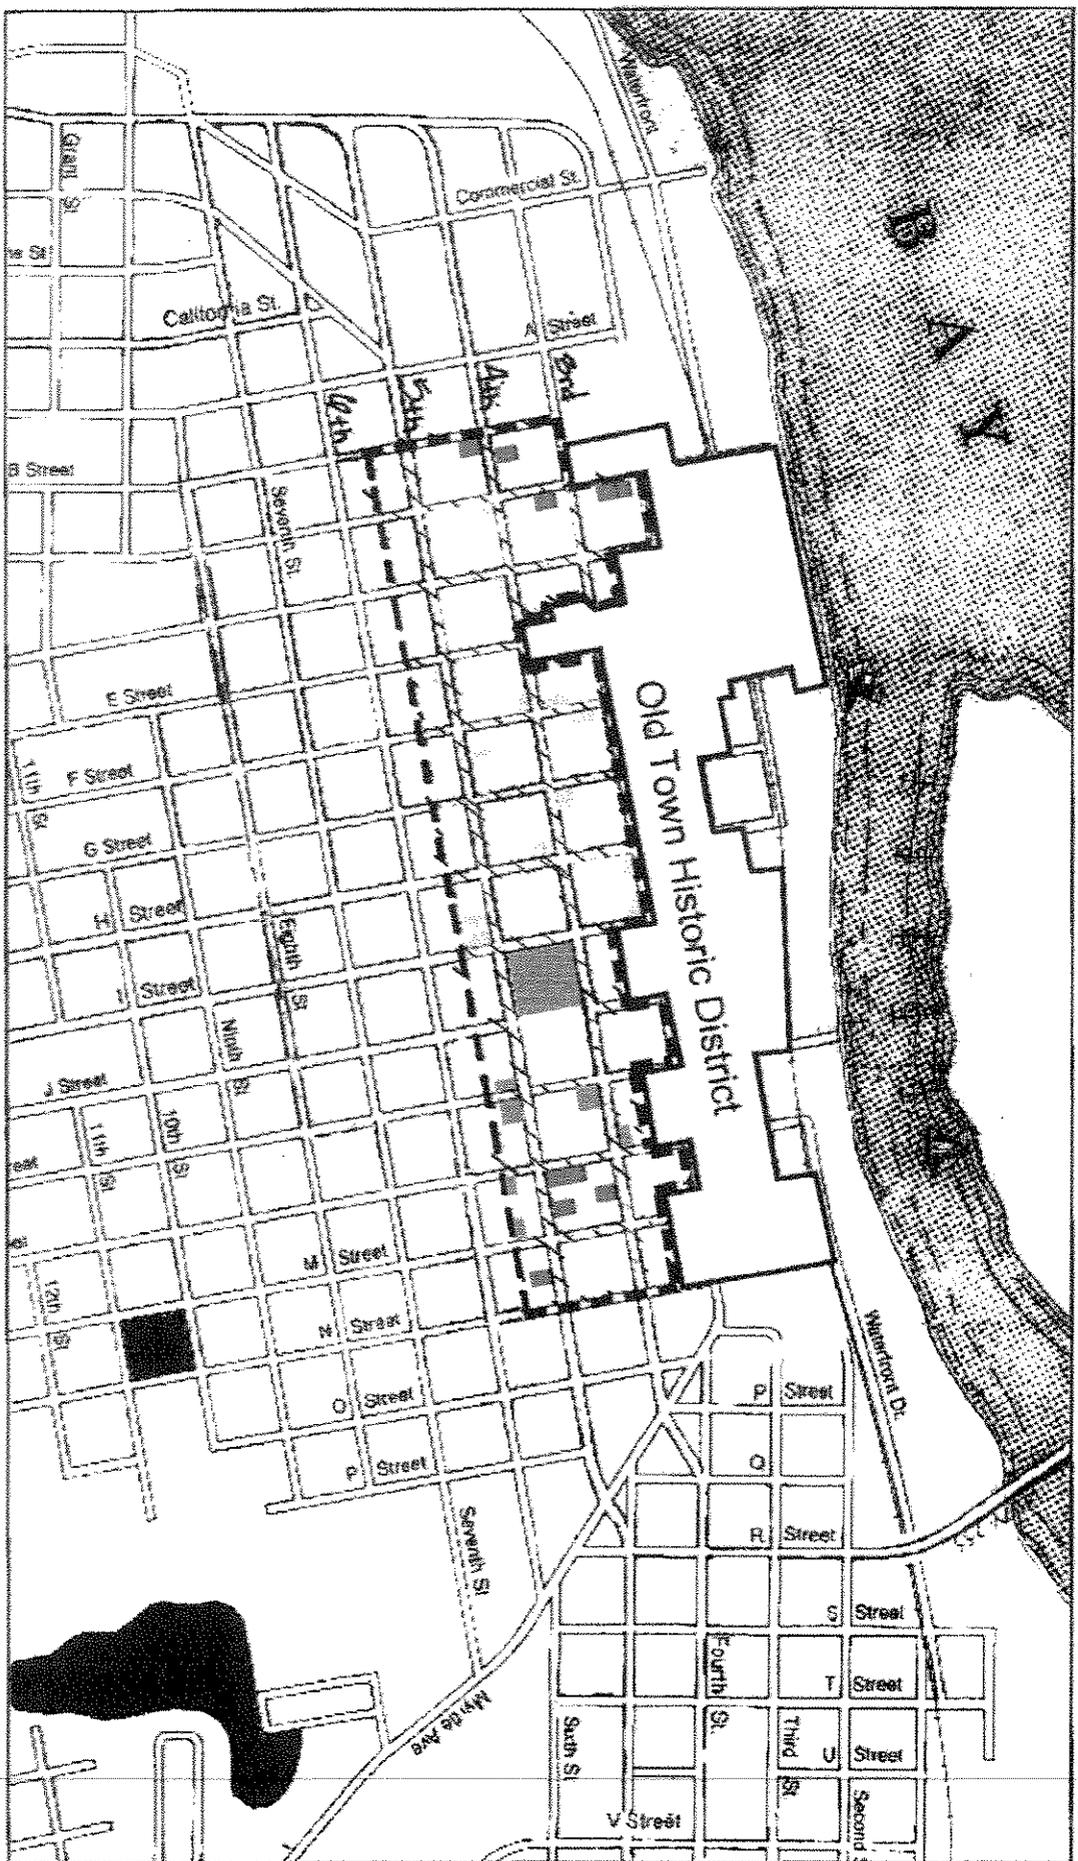

4.0 Recommendations

The Downtown Core Area Reconnaissance Survey is intended to identify historic resources constructed between c. 1935-1965 in the Core Area of downtown Eureka. Historic Context for the Recent Past recommendations are discussed in a separate document. The following Survey recommendations are offered to help move preservation efforts in the City of Eureka to the next appropriate phase and to provide suggestions for a more efficient approach.

1. Construction dates from Assessor files should be identified in addition to the Assessor Parcel Number and address for each property prior to or immediately following survey work.
2. Provide background data such as legible copies of Sanborn maps, previous survey forms (if any) or reports, photographs, biographical information, newspaper articles and any other available information relevant to the period of significance.
3. Properties surveyed should be recorded utilizing the most recent State of California Status Codes and by completing the State of California *Building, Structure and Object Record* form.
4. Properties surveyed should be evaluated utilizing National Park Service publications *How to Apply National Register Criteria for Evaluation*, National Register Bulletin 15, *Guidelines for Completing National Register of Historic Places Forms*, National Register Bulletin 16 A, and *Guidelines for Evaluating and Nominating Properties That Have Achieved Significance Within The Past Fifty Years*. National Register Bulletin 22.
5. Consider conducting a survey and evaluation of all properties on the south side of the of 3rd Street between C and G, and F Street between 3rd and 4th Street to identify the potential of being included in the Old Town Historic District.
6. Construction projects that require a building permit should be reviewed for consistency with the Secretary of the Interior Standards before the issuance of building permits (for those properties surveyed)
7. Careful and selective demolition or removal of inappropriate treatments may uncover important character defining features for some properties and should be monitored.
8. Actively promote the Local Incentive Programs such as the Revolving Loan Fund and the Facade Improvement Program to protect and retain integrity of properties surveyed
9. Implement and monitor the policies outlined in the draft Historic Preservation Plan to protect and preserve properties surveyed.

These recommendations are respectfully submitted.

Downtown Eureka Reconnaissance Survey

(from Eureka Visitors Map, North Coast Advertising Agency, 1986)

Note: This map is prepared as an approximate representation of the surveyed properties. Do not scale off this map.

Survey Boundary

- Older Property with Storefront from Period of Significance
- Civic, Government, Social Institution
- Auto/Transportation Related Property
- Residential Converted to Commercial Properties
- Commercial Retail, Office Property

This map prepared by *Civic Historic Property Development*

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 The Contemporary Style auto service station is rectilinear in plan with an extended overhang. The structure is concrete with sheet metal trim at the overhang and four supports posts. The service office has metal door and window frame with plate glass. There are three bays for the service area. Although the fuel pumps are missing, the property retains integrity with most of its features, including materials, forms and setting, of mid-century auto service.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Two-story Contemporary Style L-plan motel with intersecting hipped roof, open eaves, balcony with support posts and enclosed porch rail. The building is stucco with T1-11 siding possibly added at a later date. The aluminum sliders do not appear original but retain the wood trim. The original tall sign remain intact. The motel was an expansion of the "City Center Motel" at 1130 4th Street. Although somewhat altered the property retains integrity with much of the original features including material, elements, forms and setting of a mid- century motel structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Two-story Moderne Style commercial structure rectilinear in plan with a flat roof and stucco siding. There are two angled inset aluminum frame storefronts and an asymmetrical entrance to the second floor. The upper floor windows are wood frame, both sash and stationary. Although the storefronts are somewhat obscured by the awnings their angled or Z-formation is characteristic of mid-century commercial design. The structure retains integrity with original features including materials, forms and setting.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

Single story Contemporary Style restaurant building, rectilinear plan with front gable roof with dropped eaves. The gable end and side entrance elevation have board and batten siding, the front elevation has stone facing and the side and rear elevations are concrete block. The entrance has an extended awning, deep-set entry door with wood door pulls with the stylized letter S, and metal frame plate glass windows. The side entrance appears altered. The original tall pole sign remains. . The property retains a high level of integrity with original features including material, elements, forms and setting of a mid-century century commercial/restaurant structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
One and two-story Contemporary Style facade on a 1908 mixed-use building, rectilinear in plan, flat roof on both sections, stucco siding with brick veneer water table. Single story section has cantilevered awning, two-storey section has corner entry and a cantilevered awning with single support post. Wood frame windows on the upper floor and aluminum frame windows and storefronts on the street level. Includes storefronts and entry to upper floor on the side street (503-505 L St). Permits records indicate a re-roofing only in 1958. There is a garage addition to the rear. The structure retains integrity with original features including materials, forms and setting and is characteristic of mid-century mixed-use design.

APN# 001-191-002

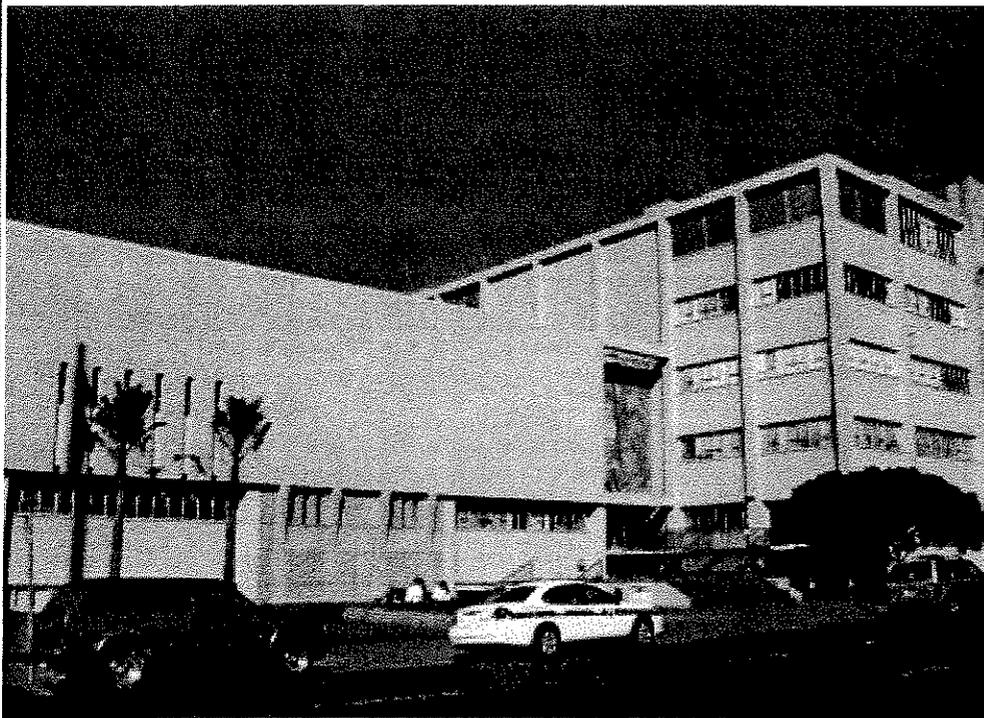

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 International Style courthouse building complex is generally concrete and glass, irregular in plan with two main sections: a 5 story section with framed bays emphasizing the verticality of the building while the flush glazing and wall surface create horizontal bands; the 3 story section is characterised by horizontal bands of glazing and concrete, also framed, on the lower half and blank wall on the upper half. The building sections are accessed by broad, low concrete steps that lead to the entry section of steel frame and glass with the upper wall faced with stone. The complex (with parking) covers the entire block of 5th and 4th Sts between I and J Sts.

The property retains a high level of integrity with the original features including material, elements, forms and setting of a mid-century civic building.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

Two-story International Style commercial structure rectilinear in plan with flat roof and extended eaves. The second floor is recessed and has framed wood panels and operable wood panel transoms (for ventilation) under and above the stationary windows. Ground floor windows are wood and aluminum frame. Overall tongue and groove wood siding. The plaza side has stairs to second floor and balcony with metal supports and stairs with decorative iron rail. Low-rise concrete steps lead to the planted plaza. The property retains a high level of integrity with original features including material, elements, forms and setting of a mid-century commercial structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Moderne Style storefront renovation of a 1920s, building. The parapet is scored stucco that angles slightly forward over the recessed entry. The storefront is aluminum framed plate glass and door with a brick veneer bulkhead. Tongue and groove wood panels above the windows appear to be more recent. The property retains a moderate level of integrity with original features including material, elements, forms and setting of a mid-century commercial structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
Moderne Style storefront renovation of an older, possibly 1920s, building. The parapet and upper portion is scored stucco. The angled or Z-storefront is aluminum framed plate glass and door with a brick bulkhead and wood trim. The perpendicular sign frame appears to be of the 1950s. The property retains a high level of integrity with original features including material, elements, forms and setting of a mid-century commercial structure.

***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

A commercial building in the Moderne Style with the upper portion of stucco and a curved painted metal-cantilevered awning over the storefront. The storefront is aluminum framed plate glass and door with an H-shaped door pull, with probably more recent tongue and groove wood siding at the bulkhead. The entry is recessed and angled with a terrazzo slab with the name "Hollanders" inset in the flooring. The property retains a high level of integrity with original features including material, elements, forms and setting of a mid-century commercial structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

Irregular in plan, the funeral home is a compilation of extensive, mostly board and batten, additions around an earlier stucco, Spanish Revival structure is evidenced on the second floor corner of the central block where three arched windows remain and on the 5th St. side where the three pairs of arched windows also remain. The A-frame main entry has broad, scalloped wood trim. The corner tower element includes an offset brise-soleil. The porte cochère is integrated into the building by a strong horizontal roof element. The structure retains integrity with materials, elements and forms of mid-century design.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Single story, flat roof commercial building in the Art Deco Style, rectilinear in plan with stucco siding. The windows frames are recent however openings appear to be in the original placement. The two recessed entryways retain the original wood and glass door with transom, and original hardware. The entries have streamlined pilasters and curved overhangs. The existing sign board appears to be covering some decorative wall motifs as evidenced in the small exposed areas below the sign board. An undated photo of the period illustrates the detailing that may exist under the sign. The structure is actually a large 1948 office addition to the front of a 1883 residence and may have been built in two phases. The property retains a moderate level of integrity with the original features including material, elements, forms and setting of an early twentieth-century commercial structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The property consists of two Contemporary Style motel buildings; the east building contains the motel office with a porte cochère. Both buildings are rectilinear in plan with gable roofs, stucco with T1-11 siding, second floor balcony with square columns, and aluminum framed windows. The original tall sign remains. The motel was named the "City Center Motel" in 1955 and later added buildings at 1137 5th Street. The property is deteriorated but retains integrity with original features including material, elements, forms and setting of a mid-century motel structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Single story Rustic Style log cabin-style building, square in plan with intersecting gable and flat roofs, open eaves and projecting beam from the front gable. The building was constructed as a residence in 1903 but converted for commercial use in 1947. The wood log siding is painted. There is a new door, wood frame plate glass and sash windows and a secondary entrance to the side. The property retains a high level of integrity with most of the original features including material, elements, forms and setting of an early-twentieth century log-cabin structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Three-story Colonial Revival Style apartment building, square in plan with a flat roof and stepped parapet with single storey commercial wing. All stucco with garland cartouche in center bay. Center bay and side elevations have three-over-one single sash windows; the six remaining windows on the front facade are three-part sash. Basement windows are eight-over-eight. Steps lead to the recessed entry. The single story commercial addition has a flat overhang, a storefront of painted metal and plate glass, an inset entry and a glass panel wood frame door and transom. The property retains a high level of integrity with the original features including material, elements, forms and setting of an early-century mixed-use structure.

*P3a. **Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)
 Rectilinear plan, two-story commercial building in the Contemporary Style with flat roof and parapet. The upper northwest corner portion is sided with painted sheet metal, lower portion has 1"x1" multi-colored tile. The recessed entry has a cantilevered metal trimmed canopy and an aluminum frame and glass storefront and entry door. The projecting sign does not appear to be original. The southwest portion and corner is tiled with 1"x1" multi-colored tile and is trimmed in wood. The corner entry has a metal trimmed canopy with wood posts and an aluminum frame and glass storefront and entry door. The north and south elevations appear to be stucco over brick. The property retains a high level of integrity with original features including material, elements, forms and setting of a mid-century commercial structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The building is rectilinear in plan with a flat roof with Moderne-style horizontal zigzag shaped metal trim at the roofline and sided with painted metal panels. The office area has aluminum framed plate glass and glass entry door. The flat roof porte cochère extends over the gas pump area (pumps removed - air/water bases remain), has metal trim and metal pole supports. The auto bays have been enclosed with metal framed and glass. Although changes have occurred the property retains integrity with original features including material, elements, forms and setting of a mid-century commercial/auto-use structure.

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

Contemporary Style two-story modified U-plan motel with extended/angled gable ends with wide wood trim, open eaves, balcony with support posts and wrought iron rail. The building has vertical wood siding (possibly added at a later date) and horizontal siding at the gable ends. The wood frame carport or porte cochère extends from the motel office, has a low-pitched gable roof with central brace and is supported by square, brick columns. The brick chimney and brick planting area bridge the area between the motel office and the motel proper. The aluminum sliders do not appear original but retain the wood trim. Although somewhat altered the property retains integrity with much of the original features including material, elements, forms and setting of a mid- century motel structure.

APN# 001-095-002

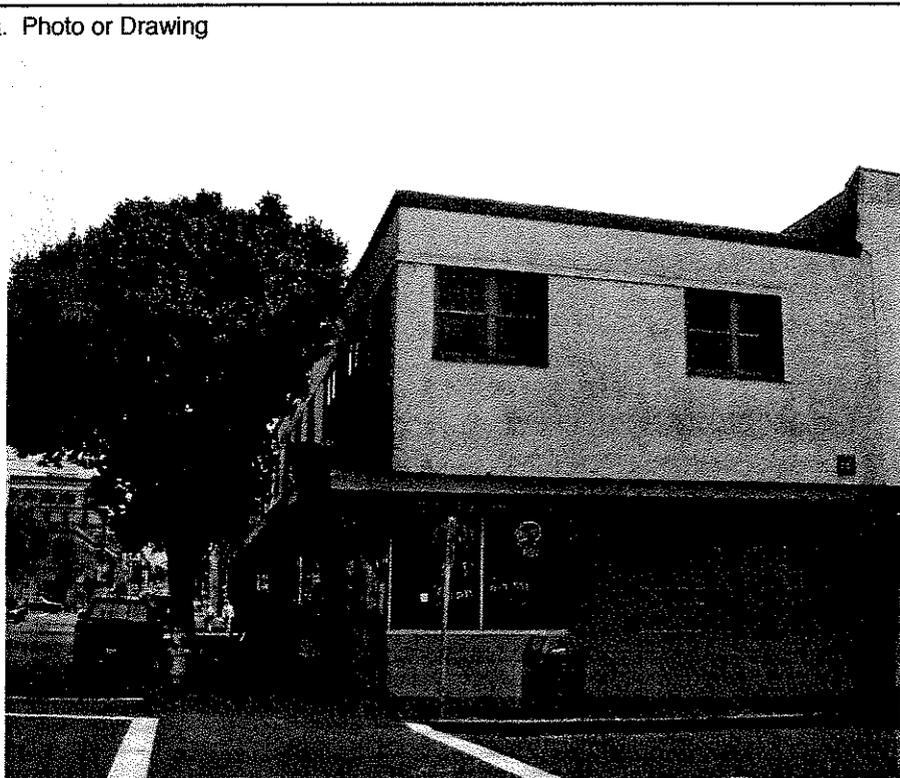

*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The two-story brick building was constructed in 1876 but was significantly altered after 1949 (unknow specific dates) with several storefronts in the Moderne Style. The upper portions of the buildings has been stuccoed with a continuous band across the top of the window frames. The three storefronts on the F St. side are faced with "Lustron"-type metal and clip panels, all angled (zig-zag) aluminum frame/glass entries with a cantelevered metal flat awning with blade signs painted over. The storefronts are primarily intact. Entry to the upper floor is original. From a period photo it appears that the building was constructed as a hotel. From the alley side the original materials may be seen including a ghost sign "Greyhound Hotel and Apts". Overall the building retains mid-century storefronts with a high level of integrity.
